Edan USA by MDPPro Devices Functioning with Health o Meter® Professional Scales:

- **Health o meter® Professional Digital Scales** measure weight, height and calculate BMI. With a BTKIT-03, the HoM scale can seamlessly integrate with an EDAN USA by MDPRO device.

The MDPPro2500 & EDAN iM3:

- These units have **advanced vital sign monitoring technology** designed to make daily use more efficient. The internal Wi-Fi capabilities, data storage and review, makes the MDPPro 2500 and iM3 our **most user friendly monitors**. Now you can export weight, height, and all vital parameters to your EMR with one push of a button.

Standard Parameters: SpO2, NIBP, PR

Optional Parameters:

Covidien Oral Temp, Infrared Ear Temp, Quick Oral Temp, Exergen Temporal Temp, Infrared Temp, Nellcor OxiMax SpO2, SunTech NIBP

The following table outlines the specific Health o meter® Professional Scales that have been approved for use with the MDPRO 2500 Series and the IM3 Vital Signs Monitor. Health o meter® Professional Scales are sold through major medical supply distributors in the U.S. and Canada. To order, choose the **Non-BT** version of the scale and the **BTKIT-03**.
